FOR IMMEDIATE RELEASE
Monday, August 24, 2009

We are very excited to bring this news to press! The Derby Track and Premier Snowmobiles of Holly Michigan have teamed up to bring an incredible new program to the GNSS Sno-X race series for the 2009-2010 season. There will be ten 2010 Enforcer 300 snowmobiles available at every GNSS race for youngsters from the age of 8 – 12 years old to race. All of the safety gear will be supplied if the riders don't have their own. The cost to race will be very reasonable at \$100 per race or \$75 if you choose in advance to sign up for all eight races which will include; the use of a sled and race gear (if you don't have your own) and entry fees. Points will be awarded at each event and the overall high point driver will receive one of the sleds that were raced through the series as the Grand Prize.

For more information please contact the Derby office. For more information on the Premier Enforcer 300 snowmobile you can go their web site at: www.premierrpc.com
